## FUNDAMENTALS OF HORTICULTURE

1. History, Importance and Scope of Fruit Growing in India.....	1-15
2. Classification of Horticultural Crops .....	16-18
3. Soil and Climatic Requirement of Fruit Crops .....	19-25
4. Plant Propagation .....	26-55
5. Selection of Site for an Orchard .....	56-58
6. Orchard-Planning .....	59-64
7. Care of Orchard .....	65-76
8. Rejuvenation of Old Orchard .....	77-80
9. Splitting of Fruits .....	81-83
10. Post Harvest Changes in Fruits .....	84-85
11. Unfruitfulness .....	86-88
12. Disposal of Orchard Produce .....	89-91
13. Fruit Preservation .....	92-111
14. Use of Plant Hormones in Fruit Crops .....	112-117
15. Plant Growing Structures .....	118-122
16. Methods of Improvement in Horticultural Plants .....	123-126
17. Fruit Development .....	127-139
18. Principles of Commercial Fertilizer .....	140-143
19. Irregular Bearing of Fruit Trees .....	144-150
20. Postharvest Handling Considerations for Fresh Fruits .....	151-157
21. Osmotic Dehydration in Fruits .....	158-159
